

REIMBURSEMENT SCHEDULE

WOMEN'S HEALTH CONNECTION REIMBURSEMENT SCHEDULE FY26			
- Reimbursement rates are based on Nevada's maximum allowable Medicare rates. The total payment is not to exceed the approved rates. - If the provider bills less than the approved rate for a service, the provider will be reimbursed at the billed amount. - The provider must accept Medicare's reimbursement rates as payment in full for services rendered. Balances may not be billed to the patient. - Providers are encouraged to give WHC patients a written estimate of any additional charges that are not covered under the program prior to the procedure. - Providers are encouraged to write off charges not reimbursed by WHC. - A surgical center (modifier SG) is a distinct entity that operates exclusively to furnish surgical services to patients who do not require hospitalization, in which the expected duration of services does not exceed 24 hours following admission. - A surgical center is not the same as a provider-based outpatient surgery center. Procedures and services performed in a provider-based outpatient surgery center should be billed using the non-facility fee. - If a provider performs a service or procedure at an ASC, the provider would be entitled to the professional rate (modifier 26), and the surgical center would be entitled to the facility fee (modifier SG). - If a provider performs a service or procedure in their office, the provider would be entitled to the Global rate. - Global fees and SG fees cannot be billed together. - All billing claims must indicate an associated ICD-10 code for reimbursement.			
A new patient is a patient new to WHC, or a patient who has NOT been seen by a WHC provider or practice within the last three (3) years. An Established Patient is a patient who has been seen by the provider or practice within the last three (3) years. All consultation visits should be billed through the standard "new patient" office visit CPT codes, 99201-99205.			
CPT CODE	OFFICE VISITS	RATE	END NOTE
99202	New patient; medically appropriate history/exam; straightforward decision making; 15-29 minutes	\$69.52	
99203	New patient; medically appropriate history/exam; low level decision making; 30-44 minutes	\$108.20	
99204	New patient; medically appropriate history/exam; moderate level decision making; 45-59 Minutes	\$162.14	1

CPT CODE	OFFICE VISITS	RATE	END NOTE
99205	New patient; medically appropriate history/exam; high level decision making; 60-74 minutes	\$214.04	1
99211	Established patient; evaluation and management, may not require presence of physician; presenting problems are minimal	\$22.59	
99212	Established patient; medically appropriate history/exam; straightforward decision making; 10-19 minutes	\$54.74	
99213	Established patient; medically appropriate history/exam; low level decision making; 20-29 minutes	\$88.45	
99214	Established patient; medically appropriate history/exam; moderate level decision making; 30-39 minutes	\$124.42	
99385	<i>Initial</i> comprehensive preventive medicine evaluation and management; history, examination, counseling and guidance, risk factor reduction, ordering of appropriate immunizations and lab procedures; 18 to 39 years of age	\$59.07	2
99386	<i>Initial</i> comprehensive preventive medicine evaluation and management; history, examination, counseling and guidance, risk factor reduction, ordering of appropriate immunizations and lab procedures; 40 to 64 years of age Approval Required	\$94.28	2
99387	<i>Initial</i> comprehensive preventive medicine evaluation and management; history, examination, counseling and guidance, risk factor reduction, ordering of appropriate immunizations and lab procedures; 65 years of age or older Approval Required	\$102.49	2
99395	<i>Periodic</i> comprehensive preventive medicine evaluation and management; history, examination, counseling and guidance, risk factor reduction, ordering of appropriate immunizations and lab procedures; 18 to 39 years of age	\$59.07	2
99396	<i>Periodic</i> comprehensive preventive medicine evaluation and management; history, examination, counseling and guidance, risk factor reduction, ordering of appropriate immunizations and lab procedures; 40 to 64 years of age Approval Required	\$79.19	2
99397	<i>Periodic</i> comprehensive preventive medicine evaluation and management; history, examination, counseling and guidance, risk factor reduction, ordering of appropriate immunizations and lab procedures; 65 years of age or older Approval Required	\$84.21	2

CPT CODE	PROCEDURES SPECIFICALLY NOT ALLOWED	END NOTE
Any	Treatment of breast carcinoma in situ, breast cancer, cervical intraepithelial neoplasia and cervical cancer.	
77061	Breast tomosynthesis, unilateral	11
77062	Breast tomosynthesis, bilateral	11
87623	Human papillomavirus, low-risk types	

END NOTE	DESCRIPTION
1	All consultations should be billed through the standard “new patient” office visit CPT codes 99201–99205. Consultations billed as 99204 or 99205 must meet the criteria for these codes. These codes (99204–99205) are typically not appropriate for NBCCEDP screening visits. However, they may be used when provider spends extra time to do a detailed risk assessment.
2	The 9938X codes shall be reimbursed at or below the 99203 rate, and 9939X codes shall be reimbursed at or below the 99213 rate. The type and duration of office visits should be appropriate to the level of care needed to accomplish screening and diagnostic follow-up within the NBCCEDP. While some programs may need to use 993XX-series codes, Preventive Medicine Evaluation visits are not covered by Medicare and not appropriate for the NBCCEDP.
3	List separately in addition to code for primary procedure 77067.
4	List separately in addition to 77065 or 77066.
5	Breast MRI can be reimbursed by the NBCCEDP in conjunction with a mammogram when a client has a BRCA gene mutation, a first- degree relative who is a BRCA carrier, or a lifetime risk of 20% or greater as defined by risk assessment models, such as BRCAPRO, that depend largely on family history. Breast MRI also can be used to assess areas of concern on a mammogram, or to evaluate a client with a history of breast cancer after completing treatment. Breast MRI should never be done alone as a breast cancer screening tool. Breast MRI cannot be reimbursed for by the NBCCEDP to assess the extent of disease in a woman who has just been newly diagnosed with breast cancer in order to determine treatment plan.
6	Codes 19081–19086 are to be used for breast biopsies that include image guidance, placement of a localization device, and imaging of specimen. They should not be used in conjunction with 19281–19288.
7	Codes 19281–19288 are for image guidance placement of a localization device without image-guided biopsy. These codes should not be used in conjunction with 19081–19086.
8	For CPT 10011 use the reimbursement rate for CPT code 10009. For CPT 10012 use the reimbursement rate for CPT code 10010.
9	HPV DNA testing is not a reimbursable test for women under 30 years of age.
10	Example: If the procedure is 50 minutes, code 99156 + (99157 x 2). No separate charge allowed if procedure <10 minutes.
11	These procedures have not been approved for coverage by Medicare.

DENIAL CODES

#	Denial Reason	#	Denial Reason
01	Another provider has been paid for service	16	FIT not eligible due to repeat test within 1 year
02	Pelvic exam performed without a Pap	17	FIT not eligible due to symptoms
03	Not Pap eligible	18	Duplicate payment according to our records
04	Not a covered CPT code under the program	19	Not eligible for second short term follow-up
05	Incorrect CPT code does not match service	20	Please bill the client's Insurance/Medicaid
06	Established patient, cannot bill new CPT	21	Post-operative care included in procedure
07	3D mammogram for women ages 40-49 not covered	22	Office visit not payable same day as procedure
08	Claim received more than 90 days	23	Not eligible for service
09	State funds closed	24	Patient is not eligible on Date of Service
10	Cannot bill for high complexity exam	25	Services not performed
11	Clinician did not sign Screening Form	26	Consult not payable to discuss normal result
12	Missing screening form	27	Under global period
13	Enrollment form incomplete or not received	28	Over income
14	Incorrect patient information	29	Wrong Date of Service
15	Incorrect Date of Birth	33	Reviewed by state staff

PROVIDER RESOURCES

The NBCCEDP follows screening recommendations from the United States Prevention Services Task Force (USPSTF). For more information on USPSTF recommendations, please refer to their website at:

<https://www.uspreventiveservicestaskforce.org/uspstf/recommendation-topics/uspstf-a-and-b-recommendations>

Nevada Cancer Coalition, Women's Health Connection & Medicaid Treatment for Breast and Cervical Cancer:

<http://www.nevadacancercoalition.org/AHN-medicaid>

Cancer Registry:

<http://www.leg.state.nv.us/NRS/NRS-457.html>

Who must report to the Cancer Registry?

- A health care provider that diagnoses or provides treatment for cancer or other neoplasm.
- Facilities, medical laboratory, or hospitals providing screening, diagnostic or therapeutic services to patients with respect to cancer or other neoplasm.

Thanks to the generosity of WHC providers, eligible Nevada residents may receive free cervical and breast cancer screenings at no charge.

Thank you for making a difference.
